## ESG Factors Applied in the Benchmark Methodology

<b>List of environmental factors considered</b>	<ul style="list-style-type: none"><li>&gt; Exclusion of companies with verified ongoing failure to respect established norms or severe/very severe controversies in an area covered by these norms. The core normative framework consists of the Principles of the UN Global Compact and the OECD Guidelines for Multinational Enterprises.</li><li>&gt; Exclusion of companies with a sector-specific ESG Corporate Rating of D- or D. The sector specific ESG corporate rating applies an alphabetical twelve point grading system from "A+" to "D-". This rating recognizes that environmental, social and governance risks differs within an industry. For instance, companies in high risk and impact sectors like oil and gas have to achieve a better performance than those in low risk sectors such as real estate.</li><li>&gt; A company's revenue percentage in the area of fossil fuels negatively affects its weighting in the Index.</li></ul>
