---	--

	<ul style="list-style-type: none"> > At least 7% reduction per year in carbon intensity (per capita) for sovereign issuers.
List of social factors considered	<ul style="list-style-type: none"> > Exclusion of companies generating revenues (in proportion to their total revenues) >0% from tobacco cultivation and production. > Exclusion of companies with verified or alleged ongoing involvement in the area of controversial weapons. > Exclusion of companies with verified failure to respect established norms such as the United Nations Global Compact (UNGC) principles, the Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises, or UN Guiding Principles for Business and Human Rights.
List of governance factors considered	<ul style="list-style-type: none"> > Exclusion of companies with verified failure to respect established norms such as the United Nations Global Compact (UNGC) principles, the Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises, or UN Guiding Principles for Business and Human Rights.

Data and Standards used

Data Input	The data used to construct the index is sourced externally from Institutional Shareholder Services Inc for corporate issuers and from the Emissions Database for Global Atmospheric Research (EDGAR) for sovereign issuers.
Verification and quality of data	The provider of ESG-related data input is selected by the Administrator based on an assessment of its existing processes in order to ensure the reliability and representativeness of the ESG-related data. The data provider has established processes in accordance with accepted and established market standards that ensure the permanent quality and reliability of the ESG-data provided.
Reference standards	International standards referenced by the index methodology are listed in the respective section above.
