Name of the benchmark or family of benchmarks	Solactive K Thematic ESG Tech & Healthcare Index PR (DE000SL0D1A8)
Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	Yes

ESG Factors Applied in the Benchmark Methodology

List of environmental factors considered	<ul style="list-style-type: none"> > Exclusion of companies with verified ongoing failure to respect established international norms. The core normative framework consists of the Principles of the UN Global Compact. > Exclusion of companies involved in incidents and events that may pose a business or reputation risk to a company due to the potential impact on stakeholders or the environment. Companies are with a score of 4 or 5 (with 5 being the worst), are excluded. > Exclusion of companies generating revenues >5% from the production or generation of electricity from oil and/or gas > Exclusion of companies generating revenues >0% from the extraction of oil sands > Exclusion of companies generating revenues >0% from the extraction of shale energy > Exclusion of companies generating revenues >0% from the extraction of arctic oil and gas > Exclusion of companies generating revenues >5% from the extraction or power generation of thermal coal > Companies in the bottom 20% in terms of managed ESG risk as measured by the ESG risk score are removed from the index starting universe.
List of social factors considered	<ul style="list-style-type: none"> > Exclusion of companies with verified ongoing failure to respect established international norms. The core normative framework consists of the Principles of the UN Global Compact. > Exclusion of companies involved in incidents and events that may pose a business or reputation risk to a company due to the potential impact on stakeholders or the environment. Companies are with a score of 4 or 5 (with 5 being the worst), are excluded. > Exclusion of companies with verified ongoing involvement in the area of

	<p>controversial weapons (including chemical, biological and nuclear weapons (both under and outside the Treaty on the Non-Proliferation of Nuclear Weapons), depleted uranium munitions, cluster munitions, and anti-personnel mines).</p> <ul style="list-style-type: none"> > Exclusion of companies generating revenues (in proportion to their total revenues) >5% from the production of adult entertainment > Exclusion of companies generating revenues >0% from manufacturing and selling of key components, or retail and/or distribution of small arms > Exclusion of companies generating revenues >0% from manufacturing of military weapons or components > Exclusion of companies generating revenues >5% from the operation or manufacturing of specialized equipment used for gambling > Exclusion of companies generating revenues >0% from the production, retail or supply of tobacco related products/services > Companies in the bottom 20% in terms of managed ESG risk as measured by the ESG risk score are removed from the index starting universe.
List of governance factors considered	> Not applicable.

Data and Standards used

Data Input	The data used to construct the index is sourced externally from Sustainalytics.
Verification and quality of data	The provider of ESG-related data input is selected by the Administrator based on an assessment of its existing processes in order to ensure the reliability and representativeness of the ESG-related data. The data provider has established processes in accordance with accepted and established market standards that ensure the permanent quality and reliability of the ESG-data provided.
Reference standards	International standards referenced by the index methodology are listed in the respective section above.
