

FACTSHEET - AS OF 31-Mar-2026

Solactive Pacer US Cash Cows Bond Index

DESCRIPTION

The Solactive Pacer US Cash Cows Bond Index is designed to track the performance of 101 corporate and individual bonds (Minimum 75 effective holdings and 25 issuers) issued by high free cash flow-generating companies, as identified by the Pacer US Cash Cows 100 Index and the Pacer US Large Cap Cash Cows Growth Leaders Index. This index employs an objective, rules-based methodology to ensure investments are focused on quality bonds from companies with robust financial health, high free cash flow yields or margins, and strong debt coverage capabilities. Weighted with a cap on each issuer of 4% and 1% per bond at the time of rebalance, it seeks to optimize yield while maintaining liquidity and credit quality. The index is reconstituted and rebalanced annually to align with its strategic objectives.

HISTORICAL PERFORMANCE

CHARACTERISTICS

ISIN / WKN	DE000SLOFHK7 / SLOFHK	Base Value / Base Date	1000 Points / 12.12.2024
Bloomberg / Index RIC	MILKTR Index / .SOLPMILK	Last Index Value	1053.20
Index Calculator	Solactive AG	Index Members	102
Index Type	Total Return	Calculation	8:00 am to 23:05 pm (CET), every 15 seconds
Index Currency	USD	Backtest Start Date	30.09.2009

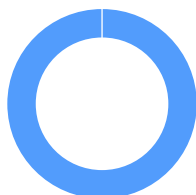

STATISTICS

The information contained in this factsheet is impersonal, not tailored to the needs of any person, entity or group of persons and for informational purposes only. The information contained herein has been obtained from public sources believed to be reliable, but no representation or warranty, express or implied, is made that such information is accurate or complete and it should not be relied upon as such. The content is provided on an "as is" basis. Solactive AG accepts no responsibility or liability for any errors or for any loss from use of this factsheet or any of the information or data contained herein. In no event shall Solactive AG be liable to any party for any direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees, or losses (including, without limitation, lost income or lost profits and opportunity costs) in connection with any use of the factsheets and its content even if advised of the possibility of such damages.

It is not possible to invest directly in an index. Exposure to assets represented by an index is available through investable financial instruments that seek to provide an investment return based on the performance of an index. A decision to invest in any such financial instrument should not be made in reliance on any of the statements set forth in this document. Prospective investors are advised to make an investment in any such financial instrument only after carefully considering the risks associated with investing in such financial instruments, as detailed in an offering memorandum or similar document that is prepared by or on behalf of the issuer of the financial instrument or vehicle.

The financial instruments are not sponsored, promoted, sold or supported in any other manner by Solactive AG nor does Solactive AG offer any express or implicit guarantee or assurance either with regard to the results of using the Index and/or Index trade mark or the Index level at any time or in any other respect. Solactive AG makes no assurance that financial instruments based on the index will accurately track index performance or provide positive investment returns. Solactive AG is not an investment adviser and nothing in this factsheet constitutes a recommendation by Solactive AG to invest capital in financial instruments nor does it in any way represent an assurance or opinion of Solactive AG with regard to any investment in a financial instrument. Inclusion of a security within an index is not a recommendation by Solactive AG to buy, sell, or hold such security, nor is it considered to be investment advice.

The index is launched on 12-Dec-2024. All information, including index levels, provided for any date or time period prior to the launch date is back-tested. Back-tested performance is not actual performance, but is hypothetical. The back-test calculations are based on the same or fundamentally the same methodology that was in effect when the index was launched. A back-test calculation means that no actual investment which allowed a tracking of the performance of the Index was possible at any time during the period of the back-test calculation and that as a result any comparison is purely hypothetical. The methodology and the model used for the calculation and back-test calculation of the Index were developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore this performance comparison is purely theoretical.

Past performance should not be considered as indication or guarantee of any future results. Charts and graphs are provided for illustrative purposes.
